Subject: Charlie Company Builders on Hill 55, Detail Buford, Third Deployment

Hello, **(this email is edited)**

I recently received some information about the various details of NMCB 62 Charlie Company from Norm Hahn but see that the list originated with you so thought I would address this email to you. I just wanted to note that there are two men missing on your list to include: BU1 P.W. Walker and myself, BU3 Kenneth J. Ward. We also worked on Provincial Route LTL-4 putting in French culverts, wing walls and metal culverts. BUC Vollono was the platoon leader. P.W. Walker was the squad leader and I was his grenadier.

I was also a member of Det Barracuda and Vandergriff Air Force Base but again am missing from these lists.

I am still in contact with some of the men from these details: Carl Jenkins, John Frederick, Larry Rose, Joe Mazza, Mike Howard, Ray Boes and Neil Seaman. I made a career of the Navy and retired after 24 years in the Seabees as a BUCS. I am looking forward to seeing everyone at the reunion this April.

I also look forward to hearing back from you on any updates to the Dets listed above.

Thank you for your time.
Ken Ward
